SUMMARY

To work in an organization which ensures a challenging environment where I can utilize my technical skills towards the development and implementation of new ideas and contributing to the growth of the organization

EDUCATION

SKILLS

JAVA

J2EE

HTML

CSS

SQL

MongoDB

JavaScript

Hibernate

Spring Boot

JAVA :-

- Having very good knowledge in OOPS concepts such as inheritance, method overloading and overriding, constructors, classes and objects etc.,
- Also good at Arrays, Multi-threading, string and Encapsulation concepts.

J2EE:-

- JDBC Connectivity, Creating tables using MySQL Workbench, and JDBC Objects and Methods.
- Theoretical knowledge of Servlets and JSP.

SQL :-

- Having very good knowledge in SQL Statements such as DDL, DML, TCL, DCL AND DQL.
- Good command in Data query language, operators and functions in SQL.

WEB TECHNOLOGIES :-

- Good Practical knowledge of HTML Tags and Attributes.
- Using of CSS styles for backgrounds, pseudo elements, and transitions. Understanding JavaScript functions and has good knowledge of applying of bootstrap .

SPRING BOOT :- Annotations, Understanding of Spring Boot MVC Architecture.

INTERNSHIPS

CodeTantra Tech Solutions Pvt Ltd, Hyderabad.

[AUG 2022- OCT 2022]

Role: Intern

Key Skills Gained:

- Experience using MongoDB.
- Understanding and implementing of CRUD operations.
- Experience with agile development methodologies and test-driven development.
- Strong understanding of relational database design and optimization.
- Develop, implement, and maintain applications using MongoDB.
- Provide technical feedback and advice to other team members.

Key Achievement:

- Got Certified in MongoDB from Code Tantra by taking part in continuous assessments and final test conducted by CodeTantra Tech Solutions Pvt Ltd.

KEY PROJECTS

Fraud Detection System using Machine Learning[Engineering Project]

[May 2023]

- **Technologies** : Python, Machine Learning Algorithms, SQLite
- Developed and deployed machine learning algorithms using Python and SQLite, resulting in a 40% increase in predictive accuracy and a 25% reduction in data processing time.
- Implemented advanced algorithms like Random Forest, KNN Classifier, XG Boost Classifier, and LGB Classifier; improved model performance by 25% and reduced training time by 30% The proposed solution is a Machine Learning model that will serve the purpose of detecting “fraudulent” and “genuine” transactions in real time.

My Portfolio

[July 2023]

- **Technologies** : HTML, Tailwind CSS framework, Javascript.
- Personal Portfolio Website provides brief information about the personal and Professional background of an individual.

EventManager360

[JUN 2024]

Technologies: Java, Spring boot, Spring mvc, HTML, CSS, Javascript, Bootstrap, Hibernate, JPA.

IDE's: Eclipse, Visual Studio Code.

Database: Mysql Workbench.

Api: Postman.

EventPlanner360 is an all-in-one event management platform enabling users to plan, organize, and oversee diverse events like conferences, weddings, and parties. With features for event creation, guest list management, budget tracking, vendor coordination, and scheduling, users can streamline planning efforts. Personalized event pages, invitation management, and RSVP tracking enhance user experience. Integration with payment gateways facilitates ticket sales and online transactions, fostering seamless event execution and collaboration among organizers, vendors, and attendees.

CERTIFICATIONS

Certified Java Full Stack Developer .

[APR 2024]

Mongo DB Course Completion from CODETANTRA.

[Oct 2022]

Certificate of virtual internship Completion on Robotic process Automation(RPA) by Blueprism.

[Nov 2022]

Accenture Developer Job, Tata Consultancy Services ESG Simulation, Goldman Sachs Software Engineering Virtual Experience Program, Hewlett Packard Enterprise Software Engineering Job Simulation and AWS APAC Solutions Architecture virtual experience program on Forge.

[Dec 2023]

SQL Intermediate Level and Java Certified from HackerRank

[JUN 2024]
